HOMESCHOOL & INDIVIDUAL ARCHER PARTICIPATION

Homeschool archers can participate in OAS through the following pathways.

1. FORM A HOMESCHOOL CLUB

A) Have at least one current USA Archery Level 2 (or higher) certified instructor or coach affiliated with the club. Assistant coaches must have current Level 1 Instructor Certification and Range Pass.

B) Have three or more archers with current USA Archery individual memberships. All archers in the club must hold an individual membership.

C) Register as an OAS Club with USA Archery, pay the annual club membership fee, and agree to USA Archery Club Terms and Conditions.

D) The club/team name must include "homeschool" or "homeschoolers." All team members must live within the same local school district.

2. JOIN AN EXISTING SCHOOL CLUB

The archer must be enrolled at that school for at least one class period and obtain school administration and club/team approval. The OAS coach must verify enrollment and school approval. An archer may not be on a homeschool team and a school team at the same time.

3. PARTICIPATE AS AN INDIVIDUAL

If a homeschool archer cannot find other homeschool archers nearby, is not enrolled at a school for an elective, or is denied school/club participation, they may participate without an OAS club. A USA Archery OAS individual membership is required.

Once a "school" has three archers participating as individuals, an OAS Club must be registered.

PRACTICE & INSURANCE

A) USA Archery General Liability Insurance does not apply to homeschool clubs/teams practicing at personal residences. A local archery range or public space is recommended; groups may rent or pay to use a public space.

B) Individual homeschool archers not on a club/team may practice at home. USA Archery individual sport accident insurance applies only during sanctioned events.
