OUTDOOR WORLD CUP AND OTHER INTERNATIONAL EVENTS**

1. SELECTION SYSTEM

1.1. Provide the minimum eligibility requirements for an athlete to be considered for Selection to the Team:

- iii. An athlete who has changed their nationality, or acquired a new nationality, will need to notify World Archery of the change before they compete internationally representing USA and may not represent the USA until one year after such a change or acquisition.
- iv. An athlete who has a valid passport of two or more countries at the same time may represent either of them, as they choose. They shall, however, meet the conditions in i. through iii. above.

N/A

N/A

2.2 List the discretionary criteria and explain how they will be used (if any):

N/A

- 2.3 Provide the name of the committee that will be responsible for making discretionary selections, along with a complete list of the members' titles currently serving on the committee:

N/A

- 2.3.1 All members of the discretionary selection committee must comply with USA Archery's conflict of interest policy, to include completing and submitting a disclosure form for review by USA Archery's Ethics Committee prior to convening the committee.

Any member of the selection committee who has an actual, possible, or perceived conflict of interest must disclose it to the USA Archery Ethics Committee prior to the start of the selection process and/or recuse themselves from the review process and/or voting. A conflict of interest exists when a personal, family, financial, professional, club, team or business interest of the committee member poses a direct or indirect relationship, connection, or affiliation, past or present, with an athlete in contention for the applicable team selection that could compromise the committee member's ability to participate in the selection process in an unbiased manner. If a conflict exists, the USA Archery's Ethics Committee shall review the conflict and determine the committee member's level of involvement (e.g., whether that committee member must recuse themselves from participating in discussions and/or voting). For example, if it is determined that a committee member must recuse themselves from voting, the Ethics Committee may still determine that a committee member who has relevant and necessary information with respect to athlete performance, for example a national team coach or high performance director, may, if requested by the selection committee, provide such information to the committee so long as such information is provided in a fair and unbiased manner and so long as the committee member with the conflict of interest does not vote toward the final decision. The committee member must not otherwise influence other members of the committee in the selection process.

Additionally, any person (including any potentially impacted athlete or coach of a potentially impacted athlete) with a good faith belief that a committee member has a conflict of interest may report the alleged conflict of interest to USA Archery's Ethics Committee. Reports may be made anonymously. No committee member shall retaliate in any way against a person who, in good faith, reports an alleged conflict of interest.

Any recused individual shall be replaced in accordance with the USA Archery selection committee appointment process.

A maximum of two athletes per nation may compete in each category, except if the Olympic Wildcard and two other qualifiers come from the same country, in which case the maximum number will be three. Qualifying for the World Cup final is done on an individual athlete basis and places are non-transferrable. For example, the U.S. may not replace a qualifying athlete with another athlete.

When serving as the host country, the U.S. may enter up to one athlete in each competition category if the U.S. has not already qualified two athletes in each category. First priority will go to any archers ranked (up to the maximum number of archers allowed per gender and division total) in the World Archery Outdoor World Cup individual rankings following the last World Cup of the current year.
