Scoring:

Electronic scoring will be used at this event. The paper scorecard will be the final determinant in any potential discrepancy between the electronic scorecard and the paper scorecard for the value of each arrow. Make sure to fill in your scorecard in completely and legibly. A miss is marked on the scorecard as an "M". In outdoor competitions, the inner ten ring is marked on the scorecard as an "X". Arrow values may not be changed once the arrow is removed from the target; however, addition may be corrected at any time before the scorecard is signed and submitted. Scorecards must be submitted to the scoring team upon completion and no later than one hour after the end of shooting. The scoring team is not obligated to correct mistakes found on a scorecard. Please be sure to check and double check before submitting!
