

ACTIVITY TIME 45 minutes

SETUP TIME 15 minutes

SKILLS LEARNED Aiming Shot Execution Scoring

AWARDS MATCH Shooting Form

# THE POINT

PIE SHOOT

f У 8 in 🕨

Archers will focus on their shooting form and aiming technique as they try to outscore their opponents, and win their choice of pie!

## EQUIPMENT NEEDED

- 3 arrows per archer
- One 80cm target face per target
- Black felt tip markers
- Assorted colored markers

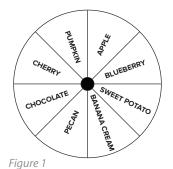

### RANGE CHANGE

- 1. On the back of the 80cm target face, trace the outer 1-ring of the target face onto the blank side of the target face with a black felt tip marker to make a large circle (this will be the outer edge of your pie).
- 2. Trace the ten-ring of the target face onto the blank side of the target. Then color in the ten-ring to create a solid dark black center circle.
- 3. Use a yardstick and a black felt tip marker to create eight equal sized pie slices within the boundaries of the circle.
- 4. Name each slice on the target with a different type of pie, and assign each pie slice to an archer. If time allows, let archers decorate their pie slice with colored markers.
- 5. The resulting target will have a dark center ring, and eight slices, similar to a pizza, or pie (See Figure 1)!
- 6. Place two ground quivers at each target.

- Yardstick
- 1 pie per participant
- Table to hold pies

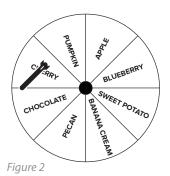

### COACH'S TIP 1

Well in advance of this activity, make sure students and parents know to bring a pie as a prize donation. Be aware of food allergies, and make appropriate preparations if any of your students have an allergy.

#### COACH'S TIP 2

Be sure arrows are uniquely marked to prevent confusion when scoring.

### PROCEDURE

- 1. Each archer should bring a pie to participate in this activity (limit 8 archers per target).
- 2. Equally divide archers into two groups of four archers and assign each group to one ground quiver per target. Archers should stand in a single file line behind the waiting line in front of their assigned quiver.
- 3. Place six arrows in each ground quiver (three arrows per archer).
- 4. Archers will take turns shooting for their slice of pie. The first archer will shoot three arrows then retire behind the waiting line.
- 5. Archers should attempt to shoot for the slice of pie on the target for which he or she has been assigned. Each arrow (no matter whose arrow) that lands in in your slice of pie is worth one point.
- 6. Archers may attempt to shoot the dark center ring for a valuable 3-point shot. Each arrow in the center ring will count as 3 points toward that archer's total score. If you shoot for the center and miss, you could be scoring points in someone else's pie slice!
- 7. After all archers shoot their three arrows, proceed to the target to score and retrieve arrows.
- 8. On your scoresheet, enter names of archers under the type of pie which they were assigned.
- 9. Total all arrows which landed in your slice, plus the 3-point center shots for each archer. Arrows that hit the line will count as one point for each archer. (See Figure 2)
- 10. Example: If you hit the center once, (3 points,) your own slice once, (one point,) and two other archers' arrows landed in your slice, (1 point each,) you will have scored 6 points.
- 11. Archers should repeat this process until five or ten rounds have been completed, depending on time.
- 12. Total the scores for all archers. The winning archer gets first choice from the pie table, second place chooses next, etc. Enjoy at home with family or friends!

### COACH'S TIP 3

This is a great activity to host around Thanksgiving. The Pie Shoot could also be used as a fundraiser. In addition to a pie, the participants must bring a canned food item for a food drive, or a new, wrapped toy for a holiday toy drive to participate. Partner with a food pantry or other charity and contact your local news agency to promote your Explore Archery Program!

## SHOOT FOR THE GOLD

To make the activity more challenging, give archers 60 seconds to shoot three arrows or make the pie slices smaller by using a 60cm or 40cm target face.
